

***REMARKS***

Claims 10, 43-45 and 47-50, 52-56 and 58 are pending in this Application, with claims 10, 43, 56 and 58 being independent claims. Claims 53 and 55 have been amended.

Claims 53 and 55 stand objected to. The specification also stands objected to. These objections are addressed below.

Claims 53 and 55 Properly Depend from a Pending Independent Claim

Claims 53 and 55 stand objected to because these claims previously depended from claim 11, which is cancelled. In response to this objection, claims 53 and 55 have been amended so that they depend from pending independent claim 10. Thus, this objection has been traversed and the Applicant respectfully requests that the objection be withdrawn.

The Specification Properly Lays Out The Sections

The specification stands objected to. In particular, the Qualye Action sets forth guidelines that illustrate the preferred layout for the specification. These guidelines were suggested for the Applicant's use.

Pursuant to these guidelines, the specification has been amended to include applicable section headers: Background, Brief Summary of the Invention, Brief Description of the Drawings, Detailed Description and Conclusion. The remaining sections from the guidelines have been omitted because they are not applicable to this specification.

Thus, this objection has been traversed and the Applicant respectfully requests that the objection be withdrawn.

### CONCLUSION

All of the stated grounds of objection have been properly traversed or rendered moot. The Applicant therefore respectfully requests that the Examiner reconsider all presently outstanding objections, and that they be withdrawn. The Applicant believes that a full and complete response has been made to the outstanding Office Action and, as such, the present application is in condition for allowance. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.

Prompt and favorable consideration of this Amendment is respectfully requested.
